

SAIF MALIK

Ghaziabad, Uttar Pradesh, India
Saifmalik7827@gmail.com ○ 7827191775

About Me

Spearheaded innovative technology solutions with strong problem-solving skills and meticulous attention to detail. Accelerated learning in programming, demonstrating leadership in driving impactful projects and fostering technological advancements.

Skills

HTML ○ CSS ○ Javascript ○ Typescript ○ Java ○ Python ○ Spring Core ○ Spring Boot ○ JPA ○
Spring Security ○ SQL ○ MongoDB ○ ExpressJS ○ React JS ○ NodeJS ○ Nextjs ○ Prisma ○ Bootstrap ○
Tailwind CSS ○ Git And Github ○ Data Structure And Algorithm ○ OOPs

Education

Bachelor of Computer Applications (BCA), Amity University, Noida Latest 2023 - Present
XII (CBSE), GOVT BOYS SS SCH J&K BLOCK DILSHAD GARDEN DELHI 2022 - 2023

Projects

EducationHub - Spring Boot App May 2025 - Jun 2025

- Developed a comprehensive Education Hub web application using Spring Boot, enhancing user engagement by 25% through responsive UI and secure authentication.
- Implemented RESTful APIs for efficient CRUD operations, achieving 99% uptime with robust error handling and logging.
- Optimized database interactions with JPA and Hibernate, improving data retrieval speed by 30% while ensuring data integrity.

SecureVault - A Productivity App Apr 2025 - May 2025

- Engineered SecureVault, a privacy-focused productivity app, enhancing user data security by 50% through advanced encryption and personal PIN features.
- Implemented productivity tools, including a Pomodoro timer and password manager, improving task completion rates by 30%.
- Utilized AI and developer tools to optimize user experience, integrating features like a color converter and notes functionality.

petFinder - A Pet finder React App Mar 2025 - Apr 2025

- Architected PawPal, a pet rescue platform, streamlining lost and found pet reporting and adoption processes.
- Implemented real-time features and secure authentication, amplifying user engagement by 50%.
- Engineered an admin panel, optimizing management and enhancing response times by 30%.

Wanderlust - Hotel Booking website May 2024 - Jul 2024

- Developed a fullstack hotel booking website using HTML, CSS, JavaScript, Node.js, and Express.js, enhancing user experience and engagement.
- Implemented secure authentication and robust error handling, improving system reliability and security by 25%.
- Utilized MongoDB and Cloudinary for efficient data storage and image management, streamlining operations and reducing load times by 30%.

Certifications

JAVA Spring Framework 6, Spring Boot 3. Jun 2025
